# About Pure Infusion Suites

Pure Infusion Suites provides IV infusion therapy and subcutaneous (Sub-Q) injections of biologic medications to patients who are suffering with autoimmune diseases or other chronic conditions.

## Bi•o•log•ic

*Noun*

A biologic drug is a type of medication that is derived from living organisms or their components, such as proteins, antibodies, or DNA.

## In•fu•sion

*Noun*

IV infusion therapy is a medical treatment that involves delivering fluids, medication, or nutrients directly into a patient's veins.

## In•jec•tion

*Noun*

A subcutaneous injection delivers medication into the fatty layer of tissue just below the skin through a small, thin needle.

## Why Pure Infusion Suites?

### Safe & Private Suites

- Comfortable, private rooms with a relaxing, spa like atmosphere.
- 55" Tvs with Netflix, Wi-Fi, drink, snacks, meals, and more.

### Financial Assistance

## Why We Founded Pure

Infusion care is often done in busy hospitals, lacking privacy and personalized care.

Pure was founded based on the personal experience of loved ones: we wanted to provide better care for patients with chronic illnesses.

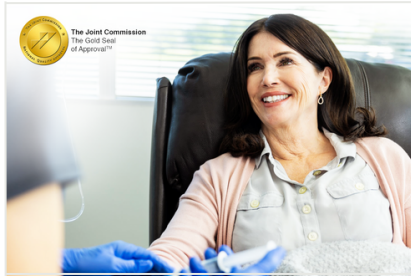

# In The News

## Infusions at new health clinic in Idaho Falls help reduce symptoms for variety of conditions

Pure Infusion Suites at 2375 East Sunnyside Road #F provides biological IV infusions for patients with multiple sclerosis, Crohn's disease, rheumatoid arthritis, Alzheimer's, and other chronic autoimmune conditions.
